

Keynote 7, 2018 NSE Grantees Conference,

Laura Hodson

NIOSH

Bionote

Laura Hodson, CIH, FAIHA is the Coordinator of NIOSH's nanotechnology research center. She is certified in the practice of industrial hygiene and has a BS in Chemistry and Environmental Studies, and a MSPH in Industrial Hygiene. Laura has over 30 years of chemistry and industrial hygiene experience including the evaluation of nanomaterial facilities, and is the document manger of several NIOSH nanotechnology guidance documents including Approaches to Safe Nanotechnology. She is a Fellow of the American Industrial Hygiene Association (AIHA), co-recipient of the AIHA 2015 Edward J. Baier Technical Achievement Award for the nano field team efforts, and an active member of the AIHA Nanotechnology Working Group.
