

**Sarah A. Bates** is a public affairs specialist for the National Science Foundation (NSF), where she helps to share science and engineering discoveries with the public and leads communications strategies for the Engineering Directorate. Prior to joining NSF, Sarah was a science writer and media officer for the Society for Neuroscience (SfN), where she managed content and partnerships for the website [BrainFacts.org](http://BrainFacts.org), a public information initiative of The Kavli Foundation, the Gatsby Charitable Foundation and SfN. Before that, she developed multimedia content for the Federal Aviation Administration, and was a freelance science writer for *Discover* magazine and several newspapers. Sarah has a master's degree in magazine, newspaper and online journalism from the S.I. Newhouse School of Public Communications at Syracuse University. She also has a master's degree in astronomy from New Mexico State University, as well as an undergraduate degree in physics from Hendrix College.
