

Dr. Matthias W. Pleil

University of New Mexico and the Southwest Center from Microsystems Education

Matthias Pleil, Ph.D. is the Principal Investigator of the Southwest Center for Microsystems Education (SCME), an NSF funded Advanced Technological Education Regional Center located at the University of New Mexico's Manufacturing, Training and Technology Center (MTTC). Dr. Pleil is a Research Professor and Lecturer of Mechanical Engineering at the University of New Mexico and a part time faculty member at Central New Mexico Community College in the Schools of Applied Technologies and Math, Science and Engineering. Dr. Pleil has taught Engineering Design, Microsystems (MEMS) Fabrication and Design, Physics, and Survey of Engineering courses. He has over 12 years experience in Semiconductor Manufacturing as a senior process and equipment engineer, and engineering manager in Photolithography, Yield and Metrology. Dr. Pleil received his Ph.D. in Physics in 1993 from Texas Tech University where he completed original research on Time Resolved Fluorescence Spectroscopy.
