

**Suk-Wah Tam-Chang, Ph.D.**

Program Director, CHE  
National Science Foundation

**Bio:** Prior to her time at NSF, Dr. Suk-Wah Tam-Chang received her B.S. (Hon.) degree in Chemistry from the University of Hong Kong in 1983 and her Ph.D. in Organic Chemistry at the University of California, Los Angeles in 1992 (Advisor: Prof. François Diederich). She was a postdoc at the Department of Chemistry and Chemical Biology at Harvard University (Advisor: Prof. George Whitesides) from 1992-1994. In addition, she received an NIH Postdoctoral Fellowship in 1993 and NSF CAREER Award in 1999.

Dr. Tam-Chang joined the NSF Chemistry Division in 2009 as a Program Director and became the Program Lead of the Macromolecular, Supramolecular and Nanochemistry (MSN) Program in 2013. She spearheaded the Solid State and Materials Chemistry (SSMC) Program of the Division of Materials Research in 2013 and the Biosensing Program of the Division of Chemical, Bioengineering, Environmental, and Transport Systems in 2020. She has served on numerous NSF-wide activities in the past, such as having held the co-chair position for the Sustainable Energy Pathways (SEP) working group and serving on the Integrative Graduate Education and Research Traineeship (IGERT) Coordinating Committee, the National Research Traineeship (NRT) Coordinating Team, and the Designing Materials to Revolutionize and Engineer our Future (DMREF) Program.
